Part A: Pupil premium strategy plan

Statement of intent

Ormiston Cliff Park Primary Academy is committed to ensuring that pupils who experience barriers to educational achievement and therefore qualify for the pupil premium grant make as much educational progress as their peers and experience the same level of enjoyment and welfare as their counterparts.

Research has found that the disruption to schooling caused by the Covid-19 pandemic continues to have a significant impact on disadvantaged pupils and that an attainment gap remains following interruptions to schooling as a result of national lockdowns. The continuing economic impact of Covid 19 and the “cost of living crisis” has also led to higher numbers of pupils qualifying for pupil premium

The Academy's strategy builds upon the strategy of 24/25 using a tiered approach, targeting spending across 3 main areas, i.e. investment in high quality teaching, investment in targeted academic support and investment in supporting specific non-academic issues that impact success in school, such as attendance, behaviour and social and emotional challenges

The Academy draws upon evidence of effective practice in determining how to utilise the funding, focusing on a small number of priorities each year in areas that are likely to make the biggest difference, prioritising on ensuring that implementation is effective through rigorous monitoring of impact.

Evidence indicates that high quality teaching is the most powerful way for schools to improve pupil attainment, especially for disadvantaged pupils and staff at OCPPA are committed to developing high quality teaching, assessment and a broad and balanced, knowledge-based curriculum which responds to the needs of our pupils.

We believe that targeted support can facilitate learning where it is linked closely to class teaching and learning.

At OCPPA we recognise that social and emotional skills support effective learning and are linked to positive outcomes later in life. In support of this we believe that good attendance, access to a range of extracurricular enrichment opportunities and a personal development focus equips our children well.

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Lower levels of speech, language and vocabulary development
2	Poor attendance rates and higher levels of Persistent absence than the rest of the Academy (PA)

3	To ensure all disadvantaged children have Foundational core knowledge and skills that they need to achieve outcomes enabling them to be equipped to access the next stages in their education
4	To improve children's independence in learning demonstrating deeper thinking
5	Raise levels of stakeholder engagement with the Academy and with learning across the curriculum

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
By the end of the strategy the Academy wants to demonstrate a profile of closure of gaps in attainment, achievement, attendance and engagement in the wider curriculum, between children deemed to be disadvantaged and that of less disadvantaged peers	July 2026 – PA for Disadvantaged pupils will be less than 15%. Attendance 95%
	July 2026- EYFS 60% of Disadvantaged pupils will achieve GLD
	July 2026 -Year 1 Phonics – 70% of Disadvantaged pupils will achieve a pass in Phonic screening test
	July 2026 - End of KS2 – 65 % of Disadvantaged pupils will achieve age expected outcomes in Reading; 70% of Disadvantaged pupils will achieve expected outcomes in Maths and 60% in Writing. 10% of this group will achieve Reading and Maths at Greater Depth, and 5% Writing.
